WORK EXPERIENCE

Larsen & Toubro Infotech (now LTIMindtree) — Mumbai, India
Software Engineer — *Aug 2020 - Nov 2022*

- Integrated Java, Spring Boot, Spring Security, Hibernate and SQL databases to develop REST APIs.
- Designed & developed user-friendly components that enhanced user experience using the Angular framework.
- Developed secured & efficient REST APIs using Spring Security and JWT Tokens.
- Authored 50+ complex SQL Queries with joins in facilitating efficient data storage & retrieval.
- Constructed dynamic PL/SQL queries (functions, procedures, triggers) according to the requirements.
- Worked with the client for requirement gathering and implementation.
- Crafted over 100 unique Splunk queries, reports, alerts and dashboards, impacting customer experience and increasing team productivity by 25%.
- Installed Splunk Enterprise across environments to monitor & troubleshoot system issues, achieving 50% faster responses in resolving significant incidents.
- Adapted to client needs or project specifications changes while focusing on delivering high-quality results.
- Assisted and collaborated with peers with troubleshooting bugs in code and the development & growth of their skills.
- Learned new things in a fast-paced environment per the requirements to better serve the customer.

LEADERSHIP EXPERIENCE

Larsen & Toubro Infotech (now LTIMindtree) — Mumbai, India
Software Engineer — *Aug 2020 - Nov 2022*

- Managed a team of 5 developers in creating an innovative online portal utilizing cutting-edge technologies and frameworks widely adopted in the industry.
- Spearheaded meetings with the stakeholders and team members to better understand the requirements.
- Provided employee training for four new hires over three months, offering continuous guidance and mentorship on best practices while giving constructive feedback.
